

# Zen Patterned Snowshoe

Step-by-Step Instructions for our March Family Friendly Activity

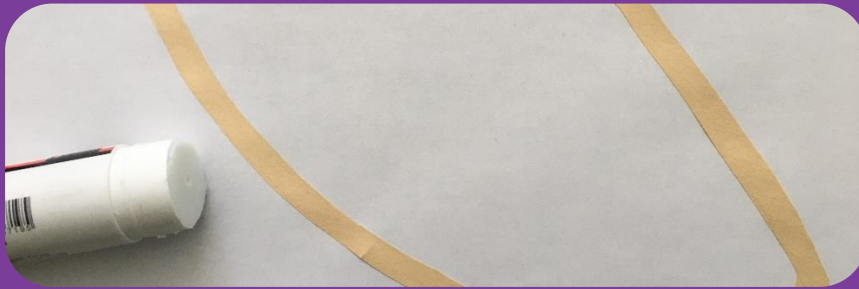

For this activity, you will need:

- Cardstock
- Construction Paper
- Pencil
- Scissors
- Glue Stick
- Markers/Pencil Crayons

Snowshoes leave unique patterns in the snow. Get inspired by different winter prints and create your own zen snowshoe patterned artwork.

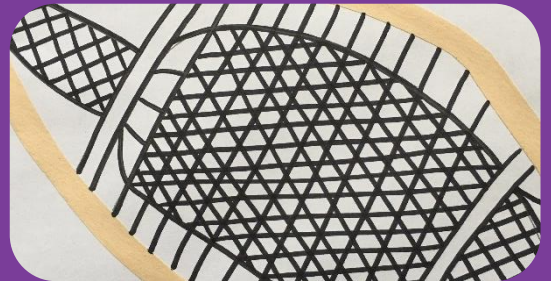

1.

Cut an outline of a snowshoe out of construction paper. It should be almost the whole size of your cardstock. Once cut, glue your frame onto your cardstock.

2.

Inside your snowshoe frame, draw the laces of your snowshoe with pencil and outline them with a black marker/pencil crayon once done.

3.

In between each section of lacing, add a different colour or pattern inspired by the winter season to complete your zen patterned snowshoe artwork.
