# Bubble Painting

Explore art with bubbles and create works of art that pop! Use basic at home materials to create abstract mono-prints and with a little extra, you can transform bubbles into something more.

## Materials:

- Paper/Cardstock
- Shallow containers
- Straws
- Dish Soap
- Food Colouring
- Spoons
- Markers

This activity is provided to you by:

### Step 1:

Fill your shallow containers approx.. halfway with water, add dish soap and a few drops of food colouring. Use your spoon to mix it all together. You can make as many containers as you would like with different colours.

### Step 2:

Take your straw and blow bubbles into the mixture. Be sure that your straw is completely in the mixture and that you blow OUT and not suck in.

### Step 3:

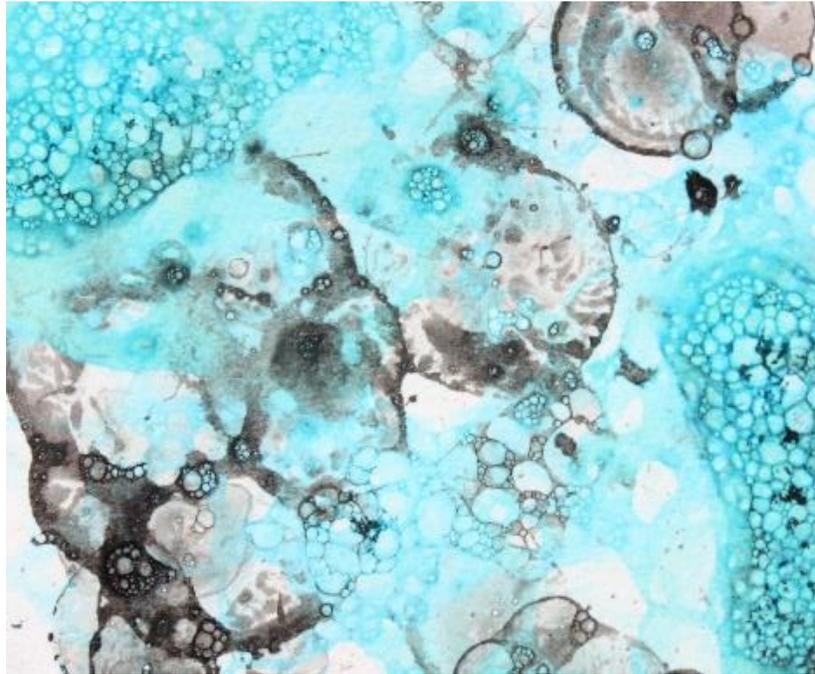

Once your bubbles are nice and high either take your paper and gently press it on top of the bubbles and pull it up to see your result. Or you can use your spoon and pick the bubbles up and put them on your paper. Let the bubbles pop and dry on your paper.

**Step 4:**

Repeat as many times as you'd like to add different colours. Then set your paper aside to dry

**Step 5:**

Once dry, take your markers and turn your bubble creations into something unique like flowers, or the background for an underwater scene – whatever your imagination comes up with!
