Abstract Landscapes

Step 1:

Begin by creating your landscape background. Draw a series of different lines on your paper – be sure to cover the whole sheet.

**Step 2:**

Use your pastels/pencil crayons/crayons to colour in each shape made by your line. Change colours for every shape. If you want, you can leave a white border between shapes to give your artwork a different effect.

Step 3:

Continue colouring in each section until your whole page is coloured.

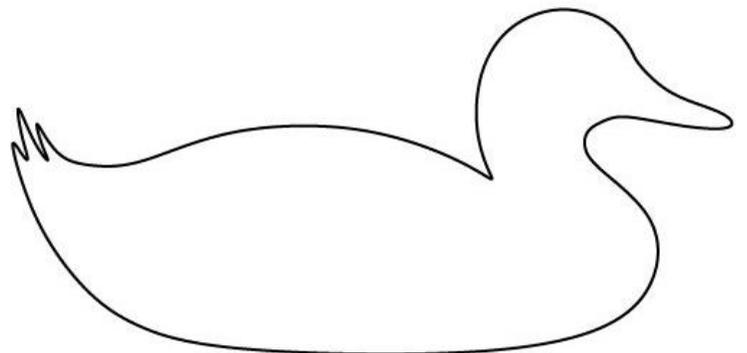

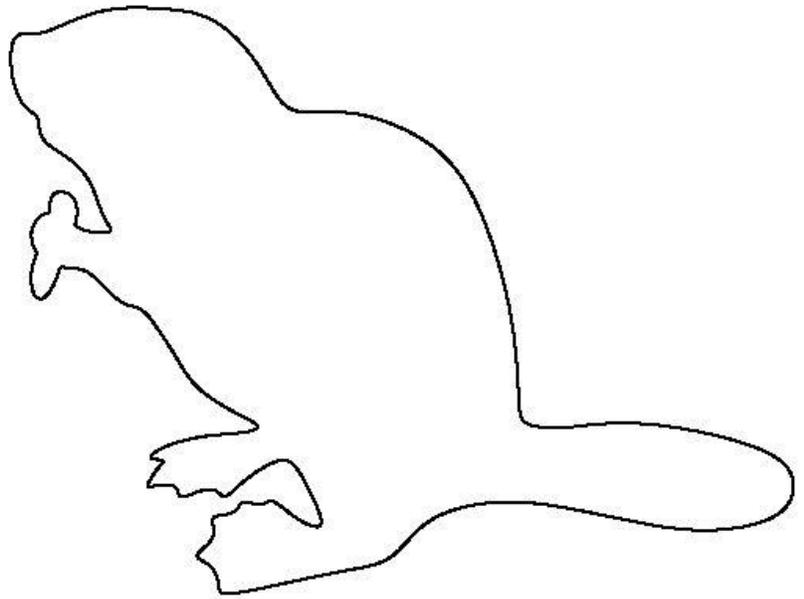

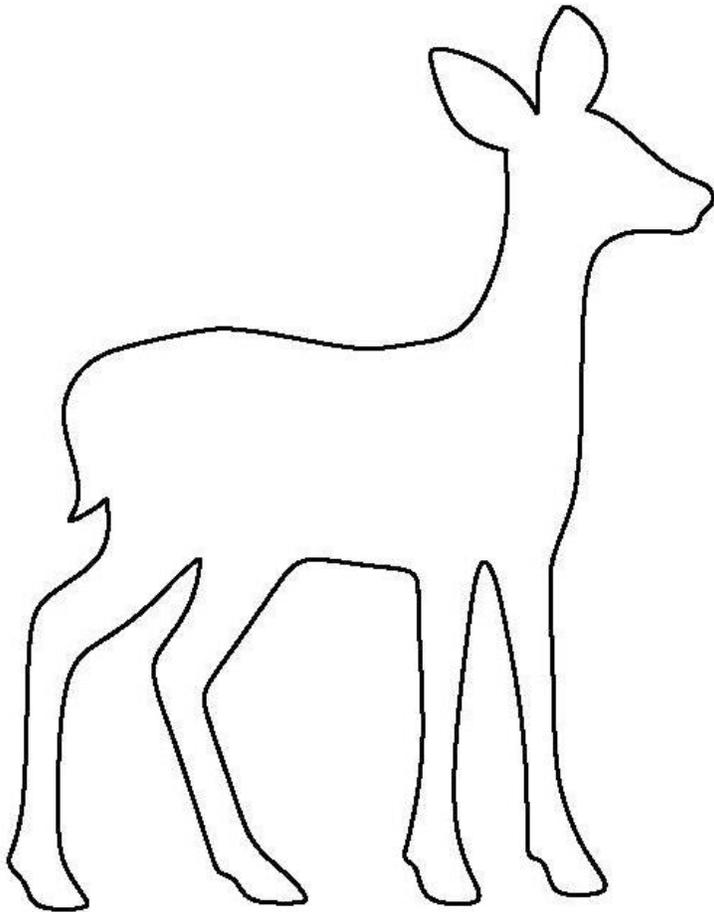

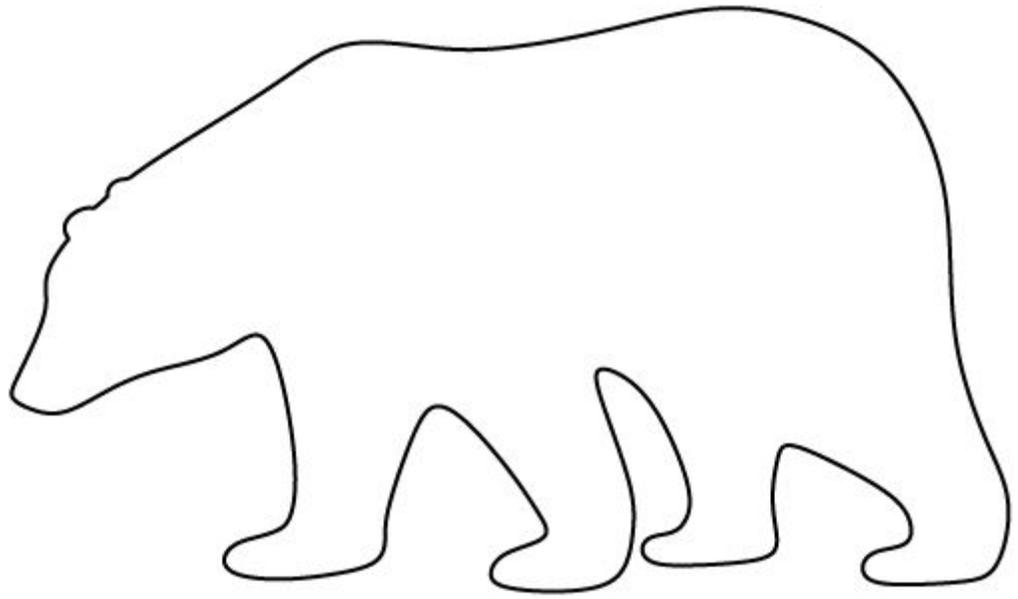

Step 4:

Use the stencils provided to add different animals or elements of nature to your artwork. Make them your own by colouring them however you'd like before cutting them out and gluing them on to your artwork. If you want to, make your own additions to glue on and you are done!
